MAKING A DIFFERENCE

“RED ROOF RETREAT IS ONE OF A KIND!”

“When I first heard about Red Roof Retreat from the Community I decided I had to go see it for myself. I was so impressed! Seeing Steffanie and her staff putting their hearts and souls into the clients, families and programs really touched my heart. I soon learned there was NO government funding and that it is a continue struggle to keep the programs going at an affordable cost to the families, it was at that moment I knew I needed to give back. Not only was my support allowing families to have a break but when I saw the clients participating in the programs their smiling faces said it all”
